

Hadi Pirmohamed

MArchD (RIBA Pt II) Graduate, Oxford Brookes University

As an Architecture graduate seeking a position as a Part 2 Architecture Assistant, I am well versed in the understanding of RIBA stages 0-4, through my practical experience in numerous design projects at university and as a freelance architectural designer. Additionally, I have a sound theoretical foundation in stages 5-7 through a mock client pitch at OBU. I could add value to your practice with my expertise in Revit, AutoCAD and physical modelling as highlighted in my portfolio. Additionally, I have acquired skills during my volunteering and when I ran an online company which developed my business insight and further enhanced my attention to detail, skills that are transferable to this role.

Football, Golf, Business

EDUCATION

RIBA PART II - MArchD APPLIED DESIGN IN ARCHITECTURE

Oxford Brookes University, 2021- 2023

Meridian Water Design Project

RIBA 0-4

The project focused on bridging the gap between two neighbourhoods by creating a community centre to promote unity. Part of the design process entailed the structure through architectural details at key points of the building. Additionally, occupancy/egress/vertical circulation/accessibility/mechanical ventilation/green roofs were all explored.

Management, Practice and Law

RIBA 0-7

Managed a team of 6, to form a fictional business competing with other firms, to pitch ideas to the client and win the project. Tasks included managing & distributing workload according to team members strengths, scheduling meetings to discuss progress/ideas and setting deadlines to ensure sufficient time to rehearse the presentation.

Design Dissertation

Exploring the urban design of Milton Keynes, focussing on resident's movement in the city and explores design intent vs reality. The dissertation moves beyond the original plans and uses the lessons learnt today to highlight future proposals for Milton Keynes.

RIBA PART I - BSc ARCHITECTURE, 2.1

Coventry University, 2017- 2020

Jewellery Quarter Project

RIBA 0-4

Designed an arts and crafts centre in Birmingham to revitalise connections in JQ. The project explored a double skin facade on the SE side of the building to maximise environmental and visual effects. In addition, building regulations B (fire safety) was implemented within the design of this project.

Multi-Disciplinary Project

RIBA 2-3

A collaboration between architects, technologists, civil engineers, quantity surveyors and construction managers to design a university campus in Spain. As the architecture team leader, I finalised designs and communicated with the other disciplines. Communication difficulties and difference in opinions with the civil engineers was overcome through a better understanding of their role, and thought process.

International Project

RIBA 2-4

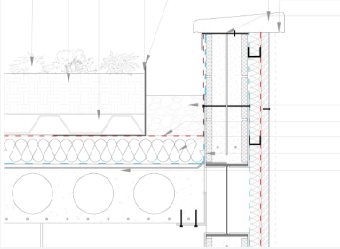

Relocated the Eden project: Foundation building (UK) to Bali, Indonesia and redesigned the structure according to its environment which aimed to maximise the buildings performance through various technologies put in place.

ARCHITECTURAL WORK EXPERIENCE

SELF EMPLOYED, FREELANCE ARCHITECTURAL DESIGNER

Residential Single Story Rear Extension: Jan 2023

RIBA 0-3

Used Revit to create floor plans, visuals and a walk-through animation of the proposed extension for a family friend's house in Hampton in Arden. The project involved a site visit to understand the clients needs and undertake a measured survey.

Architecture Display Model: July-Aug 2022 (3 Weeks)

Created an exact 1:100 scale replica of the proposed community centre in Harefield, London (See Portfolio). The project used a variety of hand modelling skills and required a great attention to detail.

Loft Conversion + Single Story Rear Extension: July- Aug 2021

RIBA 0-3

Designed an extra bedroom and extended living space for a close relatives detached 4 bedroom house in Watford. The project involved client communicating remotely (due to Covid-19), through emails/video calls, and producing Ai floor plans and elevations.

Interior Renovation for an SME Office Space: Oct- Dec 2020

RIBA 0-3

Involved in designing Ai floor plans and Ps renders for a family members 650m² office in Dubai, while keeping in mind the differing views/ideas of each partner. This was managed through clear communication with partners individually and collectively.

Single Story Residential Extension: Oct- Dec 2019

RIBA 0-2

Designed an additional bedroom/en-suite for my family's 4 bedroom detached house in Milton Keynes using Ai floor plans and a 3D SketchUp model.

OTHER WORK EXPERIENCE

Optical Sales Assistant

Dunstable Eye Centre - Brillen, July - Aug 2022

- Maintaining professionalism and service standards when communication with patients.
- Booking appointments over the phone, taking payments and answering queries.
- Explaining offers and products and helping patients select the correct frame and lens.

Founder, Self employed

ICONic DESIGNS, Jan- Oct 2021

Founded a business that designed & sold App Icons for users to customise their iOS devices. I coded the website from scratch using HTML and CSS code, developed an Etsy page to sell the products, and created Instagram page for advertising purposes.

VOLUNTEERING

Year 3 Arabic Teaching Assistant

Zainabiya Madrassa, Oct- Present

- Implemented a new report system for teachers to use weekly to assess the progress of each students throughout the year.

Social Media Manager

Zainabiya Islamic Centre/Sports Club, Aug 2022 - Feb 2023

- Overseeing/generating content for social media and maintaining a key design theme for brand awareness to create public awareness of upcoming programs/events,
